

Shallow Water Egress Training

Shallow Water Egress Training (SWET) provided by the United States Coast Guard Auxiliary, District 9ER. This training provides pilots and their passengers with hands-on training techniques vital to surviving an aircraft-ditching event. The training (which includes classroom instruction on ditching techniques and cold water survival strategies) simulates an emergency egress from an inverted and submerged aircraft. This training is available to members of the USCG Auxiliary only, for more information please contact Bob Fratangelo at (585) 737-1162 or rfratangelo@rochester.rr.com.

Directions: Off I77 in Akron, OH.

A message from the National FAASafety Team Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!

The FAA Safety Team (FAASafety Team) is committed to providing equal access to this meeting/event for all participants. If you need alternative formats or services because of a disability, please communicate your request as soon as possible with the person in the "Contact Information" area of the meeting/event notice. Note that two weeks is usually required to arrange services.
